

PureStream™ PP Prefilter

We fill your pool and spa with bottle water

The water we use to fill a pool or spa is not ready for instant usage now actually. So it becoming more necessary to filter the water before filling you pool or spa. Darby PureStream filter can meets FDA and NSF standards. It helps to remove the following contaminants:solids,dirt,sediment, rust,calclum,iron and copper.

Directions:

- Attach to any standard garden hose.
- Turn on hose till pool or spa is filled to appropriate levels.
- After use,dlow to dry and store away in dry space.
- Replace filter element when filter is full and restricts water.
